

YASH ANAND

Software Engineer

 hi@yashanand.dev  www.yashanand.dev  linkedin.com/in/yashanand1910

I am a design-savvy software engineer with a passion for web applications and systems programming. I have delivered high-quality solutions over the years for both enterprise and startups. With a Master's from a top CS school, brandishing a skillset that cuts across all aspects of the field, I'm poised to take on any software engineering challenge headed my way.

COURSES

Compiler Design
Software Architecture
Web Apps Development
Intro to Computer Systems
Advanced Formal Methods
Advanced Arch. & Design
Agile Methods
Quality Assurance
Software Project Management

EDUCATION

Graduating in Dec 2023

Master of Software Engineering

Carnegie Mellon University, School of Computer Science

CGPA: 3.9/4 • Pittsburgh, U.S.A

Teaching Assistant for Software Architecture & Web Apps Development

GRE

Score: 330

TOEFL

Score: 106

Graduated in May 2019

Bachelor of Technology in Information Technology

Vellore Institute of Technology

CGPA: 8.5/10 • Vellore, India

Core Committee Member of Computer Society of India

Languages

English, Hindi (Native)

EXPERIENCE

Jul 2019 - Jul 2022

Software Engineer

Shell

Bangalore, India (On-site)

Sep 2018 - Jul 2019

Lead Software Developer

Vicara

Vellore, India (Part-time, Hybrid)

Feb 2017 - Feb 2019

Software Development Intern

AppSecure

Vellore, India (Part-time, Remote)

- Improved performance (latency) of org-wide skills management application by 70%.
- Implemented mission-critical software for management of projects, resources, and security incidents across the organization and pioneered a CI/CD initiative for the platform.
- Winner of VP CIO Award (May 2021) and Service & Special Recognition Awards.
- Solely developed the desktop user interface for a wearable gesture controller called Kai.
- Lead software team for a product that raised over \$100k via crowdfunding on Indiegogo.
- While simultaneously pursuing an undergraduate degree, built the entire web eco-system including UI component libraries, product website, auth intermediary, and many more.
- Single-handedly developed and designed multiple security-based SaaS apps during the start-up's foundational years while simultaneously pursuing an undergraduate degree.
- Pivotal work that contributed to start-up's listing in Forbes 30 under 30 Asia (2017).
- Built a web app (rakshak.io) that was acclaimed at the RISE Conference, Hong Kong (2018).

PROJECTS

2023 • Team of 2 • CMU

C0 Compiler

OCaml, x86, WebAssembly

2022 • Team of 2 • CMU

Chesster

JavaScript, Django

2019 • Solo • Vicara

Kai Control Center

Angular, RxJS, Electron

2018 • Solo • AppSecure

Rakshak Beta

Angular, Node.js

- Within a semester, we wrote a memory-safe x86-64 compiler for a subset of the C language that achieved performance levels on par with industry-standard GCC (-O1).
- Features included strings, function pointers, arrays, structs, and a WebAssembly target.
- In just a few days, we built a fully-functional online chess multiplayer game that featured in-game spectators, chat and a global live feed of top-spectated games.
- Challenged ourselves by using vanilla JavaScript for complex asynchronous interactions.
- Solely built a cross-platform desktop app for a wearable gesture controller called Kai.
- Product (Kai) eventually raised over \$100k via crowdfunding on Indiegogo.
- Built critical module to deliver software patches to devices's entire software eco-system.
- Solely designed and developed a SaaS app for automatic web app security monitoring.
- The application was acclaimed at the RISE Conference, Hong Kong (2018).
- Incl. enterprise-grade features for scalability & interoperability with enterprise systems.

CERTs

Cert. Application Developer

ServiceNow

Cert. Implementation Specialist

ServiceNow
